Dear Dede,

Please see below for the corrected version of the estimated population of dependents on Ramsar Sites in Ghana. As mentioned earlier the estimate is based on the last **National Population and Housing Census (2010)** of the Districts or Municipal Assemblies where the sites are located with particular note of the figures of towns and villages within and around the Ramsar Sites.

I believe this will close the chapter on this topic of population dependents on Ramsar Sites in Ghana for the national report.

Best regards,

Charles

<b>Ramsar Site</b>	<b>Estimated population dependents on the Site</b>
<b>Sakumo</b>	<b>141,500</b>
<b>Muni-Pomadze</b>	<b>442,550</b>
<b>Densu Delta</b>	<b>485,700</b>
<b>Keta Lagoon Complex</b>	<b>506,980</b>
<b>Songor</b>	<b>523,180</b>
<b>Owabi</b>	<b>350,000</b>
