

## ANNEX 4

**Most important protected and endangered breeding Bird Species in the Teici Nature Reserve**

\* - par Pelečāres purva daļu informācija nav pietiekoša, lai norādītu ligzdojošo pāru skaitu

(1) **Burfield & Bommel. 2004: Birds in Europe. Population estimates, trends and conservation status**

**CR-** Critically Endangered, **EN-** Endangered, **VU-** Vulnerable, **D-** Declining, **R-** Rare, **H-** Depleted, **L-** Localised, **S-** Secure,

(2) **EU Wild Bird Directive.** Annex I - sugas, kuru izdzīvošanai un vairošanās

ir nepieciešama īpaša aizsardzība

(3) **Andrušaitis. 2000: Red Data Book of Latvia. Rare and threatened species of plants and animals**

0 - izzudušas sugas, 1 - sugas, kurām draud izzušana, 2 - retās sugas

3 - sugas, kuru indivīdu skaits samazinās, 4 - nepietiekami pētītas sugas

**breed only in Wetland Habitats**
