

Additional information to **4CA020**

Criteria: 1a, 3a, 3b,3c

Justification of part of the criteria:

3b: The site is one of the most important sites for black duck reproduction, and in spring it is an important site for migrating anserines.

3c: The site regularly hosts over 1% of the populations of *Anas rubripes*, *Anser caerulescens atlanticus* and *Anser canadensis*.

The site falls under IUCN category IV.
